Newgen Software for Healthcare Providers & Health Systems

AI-powered | Low Code Platforms

Newgen's flagship enterprise software platform NewgeONE streamlines end-to-end processes by reducing administrative burden and navigating complex workflows. Owing to AI-powered and Low Code framework of Newgen Software, hospitals, health systems, clinics, medical groups, nursing homes, diagnostic centers etc. can seamlessly integrate with their existing EMR/EHR, CRM, PHM, RCM, Tele-health & Finance Platforms. This enables them to grow, save and deliver care outcomes and patient experience.
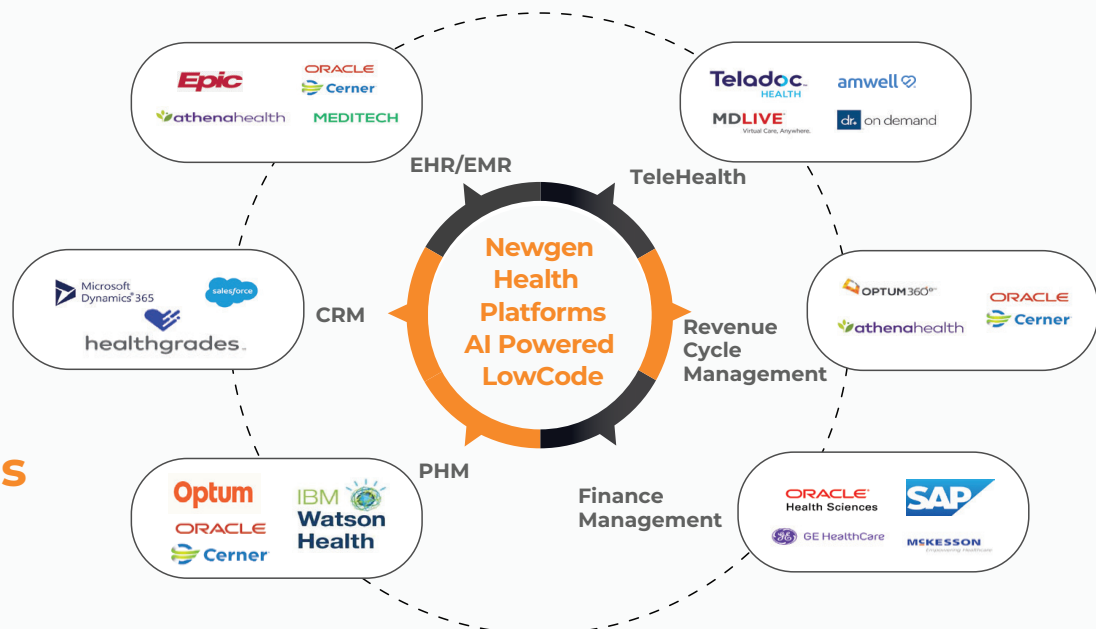

Newgen Software for Healthcare – Why?

AI-led Platform

▶ Predictive Analytics for Patient Care

▶ Automated Medical Coding

▶ Intelligent Virtual Assistants

▶ Fraud Detection and Prevention

Intelligent Processing
