

Newgen's AI-powered Provider Credentialing & Configuration Solution for Health Payers

Hyperautomate credentialing verification and pricing process in compliance with NCQA, CMS, and state and federal standards.

► **Credentialing Verification**

Automate credentialing verification for greater accuracy and efficiency. Integrate with the latest verification sources, such as Medicaid state files, license websites, SAM.GOV, preclusion lists, OIG, SSN Death Master, CLIA, PECOS, CAQH, NPPES, DEA, JCAHO, NPDB, and address validation services

► **Document Management**

Maintain a secure repository for tracking all provider-related documents. Furthermore, upload, organize, and retrieve files linked to provider records

► **Return to Provider**

Ensure timely and relevant communications by sending questions or requests for additional information to a provider. Request further details, documents, or clarification on the submitted data as needed

► **Scalable Business Logic**

Quickly adjust to updates in NCQA, CMS, and state regulations with the system's low-code framework

► **Application and Onboarding**

Facilitate quicker onboarding with streamlined electronic forms and workflows, enhancing stakeholder collaboration, and simplifying credentialing with automated notifications

► **Privileging and Credentialing Committee Management**

Support transparent decision-making in credentialing committees with a centralized platform. Ensure easy access to relevant information and documentation for smarter decisioning

► **Provider Correspondence/Letters**

Roll out letters and correspondences that comply with NCQA, CMS, state, or your specific requirements, ensuring transparency for providers

► **Roster Automation**

Automate the conversion of unstructured provider rosters into standardized formats, integrating the data into credentialing workflows and subsequently into provider data management (PDM)

► **Centralized Repository**

Enjoy a single source of truth for all credentialing documents and data, promoting easy access, maintaining data integrity, and supporting seamless updates

► **Advanced Reporting and Analytic**

Access comprehensive reporting and analytics that illuminate credentialing processes, compliance metrics, and provider performance.

Strong Integrations
