newgen

Newgen's AI-powered Provider Data Management Solution for Health Payers

Create an organized directory of providers within your network to enhance member experience and ensure compliance with marketing material and the No Surprises Act.

Provider Data Management

- Unified Data Management
- Variance Screening
- Entity Relationship Maintenance
- Flexible Provider Hierarchy & Structure
- Automated Data Capture
- Provider Update History
- Advanced Analytical & Reporting tools

Key Features

Unified Data Management: Consolidate critical information, including provider demographics, credentials, and contracts, into a single source

Variance Screening: Generate reports for providers who do not meet integration checks and initiate credentialing cases for timely reviews

Entity Relationship Maintenance: Easily manage relationships between providers for better networking

Strong Provider Hierarchy and Structure: Adapt to your existing or future structure plans in a frictionless manner
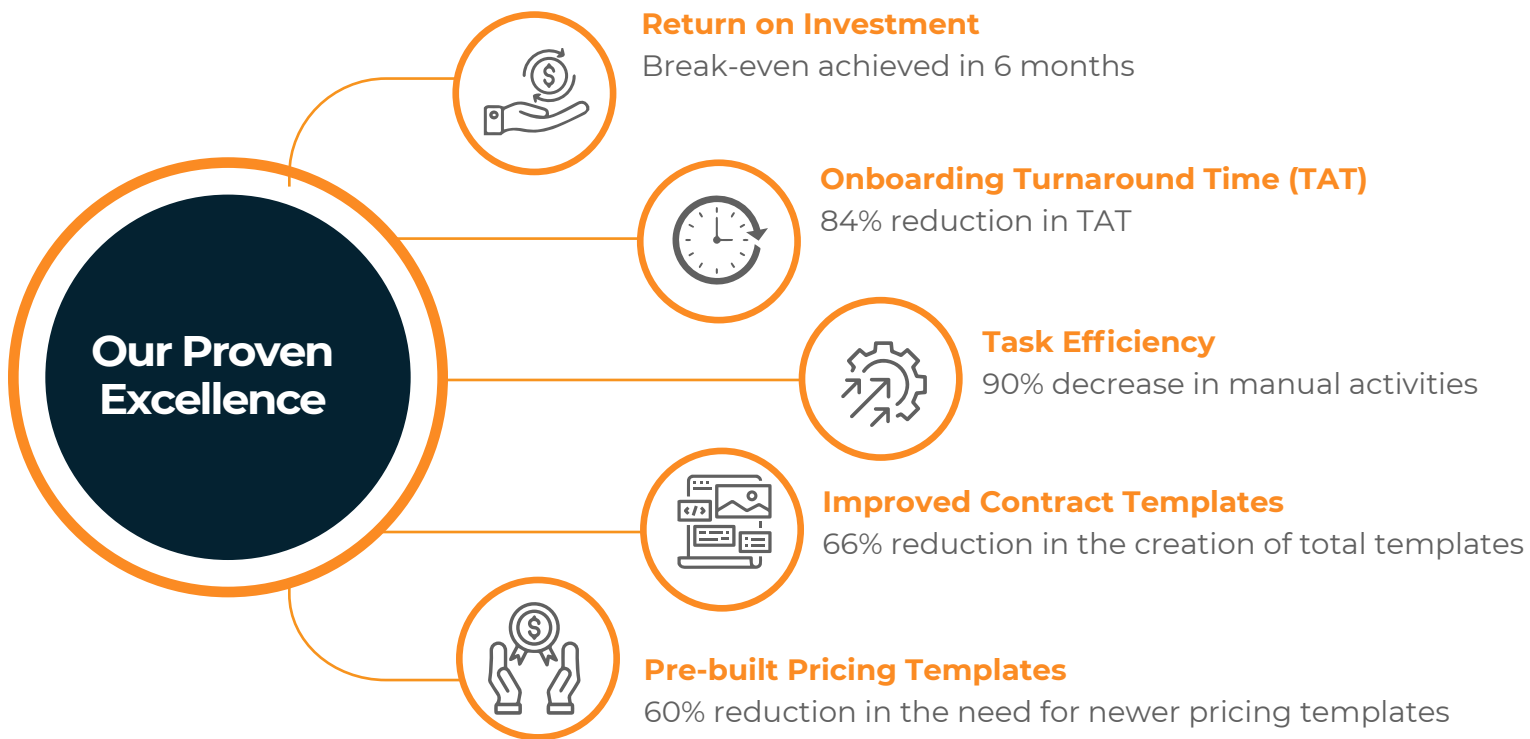

Automated Data Capture: Leverage the power of built-in capabilities, such as artificial intelligence and machine learning, to optimize data input from applications and databases

Provider Update History: Access complete provider history and documentation in one place

Advanced Analytics and Reporting Tools: Gain actionable insights into every provider's performance

Strong Integrations

CAQH | NPPES | Only Office | MS Office | OIG | SAM.GOV | JCAHO | PECOS | Preclusion | State Roster | SSN Death Master | CLIA | Address Validation | Google Maps | DEA
