

Nourishing the Future of the Nation

Mid-Day Meal Program in Partnership with The Akshaya Patra Foundation

Nutrition plays an important role in the holistic growth and cognitive development of children during their formative years, impacting physical and mental well-being. To address this crucial need and to bridge the nutrition gap, Newgen has partnered with The Akshaya Patra Foundation to support the mid-day meal program for government school students across various underserved regions since 2018.

In the ongoing financial year 2023-2024, our collaborative initiative has provided over 11 lakh meals to more than 4700 students. This effort aims not only to fill the nutrition gap but also to encourage regular school attendance and minimize dropout rates. Our project aims for widespread impact and includes students from different areas, including Vrindavan, Guwahati, Lucknow, Jhalawar, Gorakhpur, Bhilai, Mangalgiri, Baran, and Nathdwara.

Recently, our Newgen CSR team had the privilege of visiting the Delhi Mohan Cooperative Kitchen of Akshaya Patra. We witnessed firsthand the entire process of meal preparation, from cooking nutritious food to loading it onto trucks, all while strictly maintaining hygiene standards. The highlight of the visit was experiencing the delicious and nourishing meals ourselves.

Through this partnership, we remain steadfast in our commitment to promoting the healthy development and uninterrupted progress of children in need.
