Newgen CSR Volunteers:

From CSR Week to the NDDP Summer Camp

We came together and We Built

Newgen CSR has initiated the volunteers' program to enhance the engagement of community members and to propagate its values of Nation Building. During the CSR Week, the volunteers engaged with the NDDP students and helped contribute to their learning and growth. The CSR Week was an insight into the possible dynamics of volunteer opportunities.

The summer camp 2026 organized in June provided the opportunity to increase volunteer engagement in the Newgen CSR activities. The Summer Camp conducted STEM workshops, English Communication sessions and Digital literacy sessions for the NDDP students. Throughout the month the volunteers participated and provided stable and sturdy support to the NDDP students.

The success of the summer camp is a testimony of how when communities come together and build, growth happens and impact amplifies. Newgen community of volunteers is now on a path of growth. The volunteers' initiative has taken root in the Newgen family, and it is budding at an exponential pace.
