

## **Jyoti – The Story of a Challenge-seeker and a Determined Learner**

*Jyoti, an eighth-grade student, came across various academic hurdles during sixth grade amid the global pandemic. The shift to online classes at her school dampened her motivation to study, often prompting her to switch off camera during virtual sessions, further distancing her further from academic responsibilities.*

### **JYOTI'S FAMILY**

Jyoti's family struggled to extend her the required help. When schools reopened, her sub-par academic performance left her parents and teachers concerned. Despite their efforts to tutor and guide her, her academic performance remained stagnant, resulting in her enrolment to a lower-level class. This left Jyoti feeling isolated and disconnected from her peers.

### **A FRESH START WITH NDDP**

Jyoti's class teacher introduced her to the Newgen Digital Discovery Paathshala (NDDP), which marked a pivotal turning point in her academic journey. The engaging and interactive sessions by the NDDP facilitators made her optimistic towards her career goals.

### **JYOTI'S GROWTH WITH NDDP**

Participating in NDDP's online and offline sessions, such as Quiz Master and Newsreader activities, reignited Jyoti's interest in learning. She was given a tablet to continue her studies in an uninterrupted manner, and it enabled her to tackle challenging textbook chapters on the device. This approach boosted Jyoti's confidence and improved her academic performance, earning her recognition as a class monitor and a favorite among her teachers. Furthermore, her progress enabled her to relieve financial stress for her parents.

### **KEY INSIGHTS**

Jyoti's journey with NDDP encouraged personal growth and academic improvement. Her family became actively engaged as well, with her mother uncovering her own hidden talents during an NDDP mother's session. Jyoti attributes her career aspirations in medicine or education to the guidance and inspiration provided by NDDP.
