

Collaboration

for Nutrition and Education

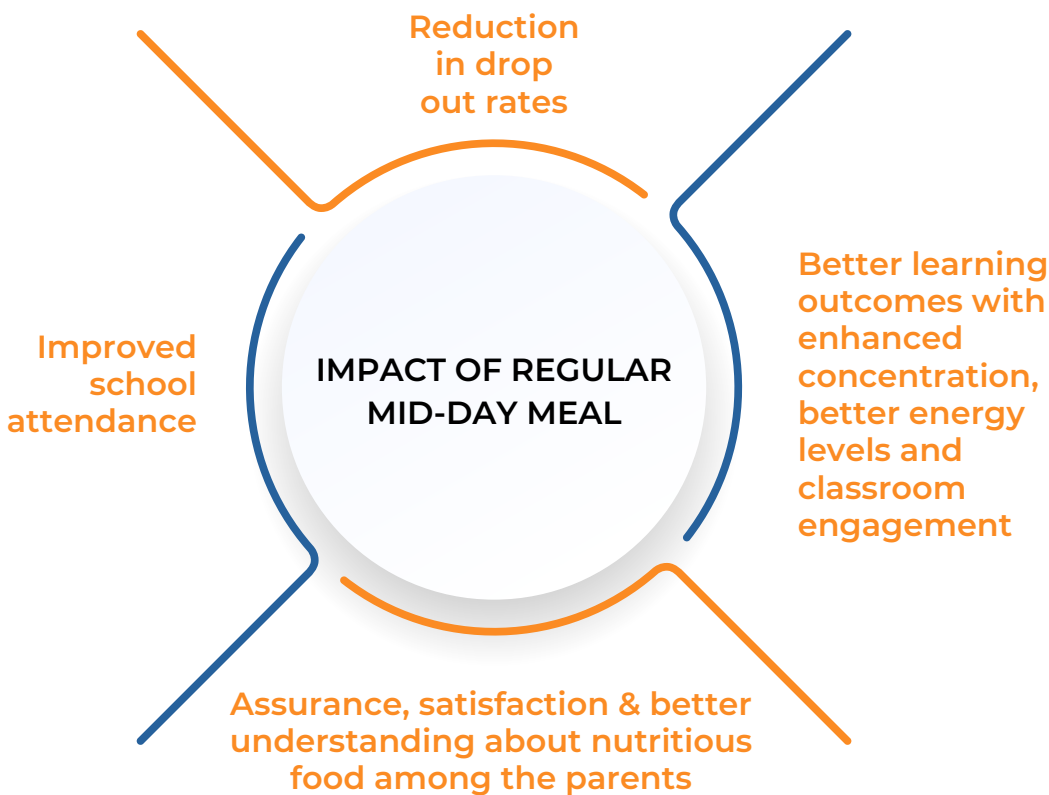

Mid-Day Meal Programme with
The Akshaya Patra Foundation

Newgen CSR's partnership with The Akshaya Patra Foundation was initiated in 2018 as a strategic method to reach the interiors of the country. Since then, the partnership has been ensuring that nutritious food is fed to the children to help with the developments required in the formative years.

Over the years, the partnership has covered remote areas across Rajasthan, Uttar Pradesh, Andhra Pradesh, Puducherry, Odisha and Assam.

The hot, delicious and nutritious food has the appropriate quantity of nutrients required for daily consumption. Over the years, we have witnessed substantial increase in the student's attendance reflecting the mid-day meals as direct motivator for attending school.

Project's Reach

In the first quarter of the present financial year, the program has provided over 3lac meals to 9000+ students. This year the partnership will continue supporting students across Baran, Nathdwara, Mant, Mangalgiri, Gorakhpur, Jhalawar, Jodhpur, Nayagarh and Vrindavan.

In 2024-2025, over 17lac mid-day meals were served to 12,000+ students across 9 locations.

The collaboration has been working towards bridging social and economic barriers to learning and will continue to bring sustainable impact in the nutrition and education sector.
