Our endeavor is to innovate and reinvent every year!

Foreword

We, at Newgen CSR have been working persistently over the past decade to bridge the digital gap and make education accessible to all.

Our flagship program on digital education, Newgen Digital Discovery Paathshala (NDDP) continues to support our nation's goal of achieving digital literacy. This year through a hybrid mode of execution, we focused on reaching 3800+ girl students from government schools of Tekhand and Harkesh Nagar. The distribution of digital devices (tablets) along with regularly recharged sim cards continued that ensures data connectivity and accessibility of the online medium for education and exploration. We were able to digitally empower over 2600 students.

Apart from the daily online sessions, we also included special digital and STEM summer camps and celebrated special events and festivals as extracurricular engagements for the students. STEM camp specifically has helped the girl students to overcome the fear of science and understand its usability in daily life. This has led to many of them planning and opting for science stream in higher classes.

“

We're embracing the digital frontier.”

The senior NDDP Alumni group was counselled through regular career mentoring sessions, along with interactions with professionals from different sectors and guidance for admission in college. This year, we organised educational scholarships for 120 NDDP Alumni. Two of our Alumni students also completed their professional courses and joined the hospitality sector. This has been a moment of immense pride for the team.

We did not stop here! The year 2024-2025 has also been a year of scaling up and expansion of new verticals for Newgen CSR. What started few years back as an annual stakeholder engagement took the form of a full-fledged program on women empowerment with the group of the mothers of NDDP students – ‘Samarth Saarthi Samuh’. The program focused on helping the mothers through digital literacy, financial literacy, mental health well-being and skill development. At the Skill Development Centre, the first batch of 40 women were trained on stitching, crocheting, embroidery and related skills. Their handcrafted products received massive love and appreciation throughout the year during the different exhibitions held at Newgen’s various office premises.

Moving on to the consistent commendable work of our project implementation partners.

KHUSHII’s remedial and digital education program benefitted 9600+ students from class 1st to 12th among 15 schools spread across Delhi, Chennai and the hilly terrains of Uttarakhand.

KK Academy’s holistic education program continued reaching to the less privileged students from class Nursery to class 8th in Lucknow. The project benefits 200+ students.

Computer Shiksha’s computer literacy program is the latest addition to our CSR. The program reached 1.2lac+ students from class Nursery onwards across 307 schools. Computer Shiksha is helping Newgen reach to the remotest and farthest corners of India across 20 states.

The Akshaya Patra Foundation’s mid-day meal programme continued providing nutritious food to school going students across regions that included Mant, Gorakhpur & Lucknow (Uttar Pradesh), Baran & Nathdwara (Rajasthan), Mangalagiri & Nellore (Andhra Pradesh) & Puducherry. We were able to provide 17lac+ mid-day meals to 12,000+ students.

IAm Wellbeing’s personality development program supported the NDDP students from class 6th onwards with various aspects of personality development, life skill development and psychological health management. A separate program with the NDDP students’ mothers also helped the women channel their emotions and balance their physical, mental and social well-being.

Each One Feed One provided the skill development training to the women at the Skill Development Centre. They also introduced digital and financial literacy to the women helping them understand the online medium to manage transactions and explore websites as per their needs.

As I end my note, I must also acknowledge the unabated and passionate work of Newgen’s CSR team. Taking the same dedication forward, we intend to continue and bring sustainable transformation into the lives of the beneficiaries.

SUCCESS STORIES

QUOTES

Dilkash

Guest Service Associate, at Radisson Blu

“When her school invited her to speak as an alumnus and share her NDDP journey, she regained her lost confidence and realized how far she has come.”

Dilkash's Beginnings

This is Dilkash's story, a young girl from Lakhisrai, a small village nestled in Bihar where education is limited. A beneficiary of the Newgen Digital Discovery Paathshala (NDDP), her life has been transformed not only changing her own future but inspiring others in her community.

Scholarship Opportunity

Upon completing school, Dilkash was chosen for a merit-based scholarship that opened doors to new possibilities. The scholarship gave her the opportunity to pursue an Air Hostess diploma at the Frankfinn Institute. She was chosen for the scholarship because of her hard work, interest, and skills.

A Change in Plans

After completing the course, she was ready to take on the world. Though she dreamed of becoming an air hostess, her path took a different turn. Instead of giving up, Dilkash stayed determined and found another way to apply her skills.

New Beginnings: A Guest Service Associate at Radisson Blu

With determination and believe in herself, she secured a position as a Guest Service Associate at Radisson Blu. Within a short span of time, she was managed to create an established space for herself. Today, she is her senior's favourite because of her sincerity and dedication towards her work. She courteously attends the guests, solve the grievances and is able to train the new recruits.

A Moment of Reflection

Today, Dilkash is a proud alumnus of NDDP, and stands as an example of how education can change lives. Dilkash's journey teaches us one powerful lesson: no dream is too big, and no destination is out of reach, as long as you believe in yourself. When her school invited her to speak as an alumnus and share her NDDP journey, she regained her lost confidence and realized how far she has come. That experience not only lifted her spirit but reminded her of the strength she gained along her journey.

Uzma

Internship, ESIC Hospital (Okhla, Faridabad & Noida)

"Self-belief and hard work will always help you attain success"

Family Background

Uzma is a hardworking and eager NDDP scholar. She hails from Etawah, Uttar Pradesh, and currently resides in Sarita Vihar, New Delhi, with her family, including her parents and younger brother. She is supported by her hardworking father and a devoted mother. Her brother is currently pursuing higher education. She proves that education can turn dreams into reality—one step at a time.

When Hope Knocked - The Transformation Period

When financial worries dimmed Uzma's dreams, destiny sent Archana—an NDDP student, who became her guiding star. Their bond brought light to Uzma's path, showing how one caring connection can rewrite a life's story. A career counselling session sparked Uzma's radiology dream - but it was Archana who turned that spark into flame. Without hesitation, she brought Uzma to NDDP, where grade 11 became the starting point of an incredible transformation. NDDP's sessions became Uzma's springboard for growth. From learning English through PowerPoint slides to proudly securing a third position in debate competitions, each lesson built her confidence brick by brick.

Empowered by Education

Uzma's journey continues presently as she pursues her Radiology diploma degree from GD Goenka Healthcare Academy. As part of her course, she is interning at ESIC Hospital to get hands-on experience. Her program-provided tablet accelerates her learning and research capabilities.

Finding Inner Strength

Uzma credits the NDDP mental health sessions for playing a crucial role in her journey. She confessed that initially she struggled with self-control and anger issues. The mental health sessions helped her realize the superpower of power of positive thinking, which encouraged her to build stronger connections with others. Uzma emphasized that a positive aura is crucial since it defines how we interact with the world around us.

Rani

Works at Radisson Blu, Jaipur

"Self-motivation is the key, and without it, one cannot unlock success. This statement holds true for Rani's story—a proud alumni of Newgen's Digital Discovery Paathshala (NDDP)"

Family Background

Rani's roots are in a small village in Gorakhpur, Uttar Pradesh. A few years ago, her family moved to Okhla, New Delhi, hoping for a brighter future. Her father works at a printing press, and her mother manages the household. Rani has an elder brother, who works as a deliveryman for Amazon. She has three elder sisters and a younger brother.

Academic Journey and the Role of NDDP

Rani has been a self-motivated person and sincere in studies. Her hard work and determination paid off really well when she achieved a distinction in her grade 12, considerably improving her academic scores. During the challenging times of the COVID pandemic, Rani came across Newgen CSR's digital education program—NDDP. In the isolation of the four-walled room that confined her during the lockdown, the tab provided to her by NDDP became a beam of hope that encouraged her to continue her studies. She fondly recalls, ***"NDDP ensured that my studies were never hindered due to lack of resources."***

Turning Dream into Reality

Despite growing up with limited means, Rani never stopped dreaming big. One of the NDDP career counselling sessions introduced Rani to the hospitality sector, which instantly channelled her thoughts in this direction. Within no time, she realized that her strengths could align well with her dreams of building a promising career in this field.

After completing her grade 12, she joined a two-year diploma program in hotel management. During the course, she also worked as an intern with Radisson Blu Plaza, Delhi. Her perseverance and relentless efforts led her to get a job at the prestigious Radisson Blu Hotel, Jaipur.

She proudly says, ***"Every day, I learn something new from my seniors. Whether it's the front office, handling guests, or managing administration, I'm involved in every task."***

Student Speak

“I learnt to use audio-visuals to study and make PPTs and PDFs in the NDDP **summer camp.**”

Divya, Class 7th

“I developed **a new perspective towards studies** and saw all the opportunities positively. This helped me enhance my marks.”

Jyoti, Class 7th

Student Speak

“I taught my mother how to use **digital device and online platform.**”

”

Priya, Class 8th

“The **tablet** turned out to be very useful for me and my siblings. We use it to study for exams. I also enjoy watching **YouTube videos** and learn new skills online.”

”

Aliya, Class 6th

Student
Speak

“I had the opportunity to participate in **NDDP STEM Camp**. Earlier I only focused on learning, but later I took on the role of peer mentoring. It was a process of self-discovery. I comprehended that I could lead.”

Madhvi, Class 10th

“I can articulate my speech and organize my thoughts. This enhanced my **communication skills**.”

Meera, Class 12th

Student
Speak

“Learning about **nutrition, menstruation, hygiene**, dealing with emotional and physical changes have empowered me to live a healthy life.”

Mukti, Class 8th

“I learnt many **life skill lessons** which help me take care of myself. I learnt how to identify difficult emotions, how to speak in front of people and how to develop good connection with my classmates.”

Siya, Class 8th

Student
Speak

“I loved the **supportive environment** of the NDDP. The facilitators clarified the doubts of all the children with patience. It helped me score good marks in my exams”

Anandi, Class 9th

“I was astonished to attend the NDDP sessions. It is so different from our regular school classes. I learnt how to study using audio-visual devices. The summer camp at NDDP taught us how to make PPTs, PDFs etc. The facilitators cleared our doubts very politely.”

Priya, Class 8th

Student Speak

“I have gained mindful awareness of body, feelings, and learned ways to control anger.”

Nisha, Class 12th

“After joining NDDP, I’ve noticed significant changes within myself. Earlier, I was never interested in watching the news and had a fear of public speaking. Thanks to the constant motivation from **NDDP facilitators**, I’ve learned to overcome fear and now regularly follow the news. This transformation has greatly boosted my self-confidence and sparked curiosity to learn more about current affairs.”

Nidhi, Class 7th

Student
Speak

“I have learned to manage my exam stress with the help of various **mental health management techniques.**”

Kajal, Class 12th

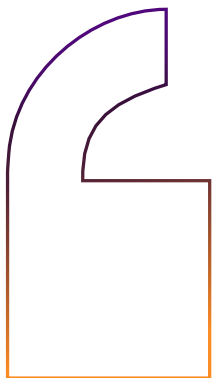

“The happiness kit helped my family save money. They were proud that I studied well and received this reward.”

Pari, Class 10th

Mothers Program

Samarth Saarthi Samuh

Sumanlata

Challenges Faced & Support System

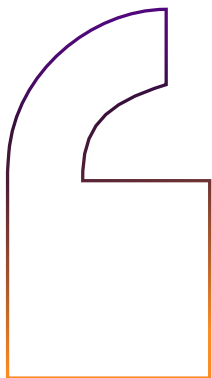

Sumanlata faces significant challenges in her life; while managing household on a limited income, it creates constant financial pressure and leaves her feeling frustrated at times. Sumanlata's support system includes her husband, in-laws, who play a crucial role in helping her navigate life's challenges. She has a son and two daughters. Her husband linked her to a stitching centre nearby their home after she moved to Delhi.

Impact of NDDP and skill development

Skill development programs has transformed Sumanlata's life, bringing opportunities have broadened her perspectives, enhanced digital literacy and stitching skills, empowering her to contribute more effectively to her family and community.

Initially struggling with some phone operations, she now confidently makes WhatsApp video calls, messages to connect with family and friends. Google, YouTube searches for getting new ideas to create craft and navigate Zoom, Google map etc. In stitching, Sumanlata has created stylish handbags, tote bags, pouches, bottle bags, patchwork mats etc. She has mastered personalized phone covers, beautiful bow hairclips, and trendy scrunchies, her proficiency with sewing machine has improved a lot. These skills have instilled a sense of purpose and capability in Sumanlata, marking a significant step toward her empowerment and self-sufficiency.

Sumanlata's journey is a testament to her determination as she overcomes the challenges. Through her participation in skill development programs, she has not only enhanced her stitching and digital skills but also gained the confidence to pursue her dreams. Sumanlata's commitment to personal growth, coupled with her understanding of women's empowerment, reflects her desire to uplift both herself and her community.

Manisha

"I think, empowerment comes when you feel balanced in every role you play—mother, wife, and most importantly yourself."

Challenges Faced & Support System

Manisha, a 25-year-old woman from Panipat, moved to Delhi after her marriage. After completing 12th, she taught at a school for a year before enrolling in college. Manisha completed graduation while living with her in-laws. She has been pursuing studies online for SSC exams. Determined to complete her education and secure a better life for her family. After joining the Skill center, it has become more difficult but with help from her in-laws, who take care of the baby, it is possible for her to manage both.

Impact of Newgen Skill Development Centre and Growth

Manisha's journey through the project has been transformative, allowing her to gain an identity and aspirations after years of self-sacrifice. Joining the program felt like stepping into a world of possibilities. The stitching classes revealed a creative side of her. She crafted potli bags and scrunchies, pouches, water bottle bags that not only honed her skills but also gained a renewed sense of confidence and purpose. The digital literacy classes were equally empowering for Manisha, shifting her view of technology from a source of anxiety to a tool for liberation. Online banking and navigating the internet, which once felt daunting, became manageable and exciting, boosting her confidence in managing her family's finances.

Through this transformative journey, Manisha has emerged as a confident woman ready to embrace life's possibilities, illustrating the profound impact that skill development and community support can have on an individual's journey toward self-discovery and empowerment.

From learning the details of stitching to mastering digital payments and internet banking, she has acquired valuable skills that have transformed her outlook on life. Manisha now feels more balanced in her roles as a mother, wife, and an individual with dreams.

Hemlata

"The skill centre has played a crucial role in helping me to polish my skills, broaden my horizons, got a chance to think for a better future in this world of technology. I wish to stay connected with the centre in future also."

Challenges Faced & Support System

Hemlata was born and raised in Aligaon, Delhi. She got married in 2004, and since then, they've been living in Tehkhand community, Delhi. The couple has two children. They have joint family system, multiple generations live together, fostering strong family bonds and support. Juggling financial issues and family needs is a major challenge for Hemlata.

Impact of Newgen Skill Development Centre and Growth

The skill development program has introduced new insights, perspectives, enabling personal growth and confidence along with a sense of happiness and fulfilment for her. Before joining the centre, she practiced basic stitching. She has learned to make, tote bags, thread embroidery pouch bags, potli, water bottle bags, hair clips etc.

In digital skills, she has improved her connectivity with friends and family by mastering WhatsApp for messaging, use video calls.

Navigating Google searches, maps, YouTube for learning, creating stylish crafts, enhancing technological operations. These combined skills have boosted Hemlata's confidence, enabling her to interact effectively in today's digital world.

She is thinking of mastering stitching skills which would expand her craft options, in-demand products creation, market saleable crafts to earn money and keep some amount as savings for future.

Her resilience and dedication to both her family and personal growth are incredible. Despite facing financial challenges, she has actively engaged in skill development programs that have significantly enhanced her abilities in stitching and digital literacy. These new skills have not only boosted her confidence but also sparked her interest in exploring potential income opportunities. Hemlata's commitment to learning and growth positions her for a brighter future, where she can contribute meaningfully to her family's well-being.

Swati

Empowering Dreams: A Journey of Skill Development and Transformation with NDDP.

Challenges Faced & Support System

Swati, is a 33-year-old homemaker from Tekhand, Delhi. Despite facing educational challenges after the 10th grade, she embraced knitting and later embarked on a transformative journey with NDDP. Her husband is employed at Blue Dart and they have three children. Her encounter with NDDP began through daughter Kavya's enthusiastic experiences, leading Swati to attend sessions and receive a digital device.

Impact of Newgen Skill Development Centre and Growth

Participation in NDDP's skill development sessions marked a turning point for Swati. Wool packets symbolized a new chapter, and despite initial doubts, she regained confidence in knitting. Her creations, featured in a handicraft exhibition, showcased significant achievement. Swati's newfound talent surprised her family, with her children requesting handmade sweaters and her husband expressing pride. The experience opened the family's eyes to Swati's skills, fostering deeper appreciation. NDDP's digital education equipped Swati with smart device skills, enhancing her access to online resources. She gained independence in navigating platforms like Google and YouTube.

Swati's journey underscores NDDP's positive influence in empowering individuals, fostering personal growth, and contributing to community development. The program's transformative potential is evident in Swati's evolution from homemaker to skilled artisan and supporter of her daughter's aspirations.

Safeena

"I am grateful to the skill program; it is an opportunity that changed my life and my dignity."

Challenges Faced & Support System

Safina was born in Mahubani district, Bihar. Her parents did not prioritize education for the daughters. Safina got married in 2009 at the age of 19. After nine years of marriage, she moved to Delhi with her husband and two children and arranged for their admissions in Tekhand Govt. school. Safeena faced significant challenges in terms of family health issues which resulted in financial struggles.

Impact of Newgen Skill Development Centre and Growth

Safeena learned about the skill centre from her neighbour and she encouraged Safeena to join the classes, to learn stitching and embroidery.

In just a few days of training, Safeena quickly learned the art of crochet and started creating beautiful earrings, key rings, toys, and other items. She showcased her work at exhibitions, turning her newfound skills into a way to support her family and contribute financially despite the challenges she faced. She invested her earnings from the exhibitions for LIC premiums. She already knew how to operate Google, YouTube, Maps etc. which helps her to see new designs and make more beautiful crafts. She is discovering a whole new world at the skill centre, stepping out of her familiar environment for the first time is a big change for her, but she is enjoying the experience.

Safeena faced numerous challenges from being alone, taking care of her children and managing the family after her husband's health complications led to financial struggles. The skill centre helped her step out of her comfort zone, leading to personal and creative growth despite the challenges she faced.

She expresses deep gratitude to Newgen for giving her the opportunity to grow and become self-sufficient. Safeena's story is an inspiration for many women who aspire to break societal norms and achieve financial independence.

“I got married very young. My husband physically abused me. After joining the skill centre I found a sense of purpose and many happy moments.”

Bimalesh

“Patriarchy and primitive customs diminished my perception. The skill centre helped me discover and build it. Consequently, I feel independent and capable.”

Aarti

“The Skill Development Centre made me stronger and eased my fears by providing education about digital tools. Now, I conduct online banking and browse the internet for my needs without hesitation.”

Manisha

“I never thought I would be this happy here. Before joining the skill centre, I felt sad and worthless but now I have a purpose.”

Sumanlata

“My distress over not being able to become a mother was pulling me down. When I joined the Newgen skill centre I felt strengthened and realized I could have other dreams.”

Rani

“Earlier I couldn't even make a call over a phone. Now, I can easily operate all the important functions of a phone. The Skill Development Centre helped me overcome my fears.”

Sushila Devi

“Leaving my studies at a young age diminished my confidence. I could not imagine I would ever get a job. When I joined the Samarth Saarthi Samuh it made me recognize my own talents.”

Mohini

“The skill centre helped me regain confidence. I started knitting and crocheting and also got to showcase my talent in exhibitions. My family started appreciating me.”

Swati

Mother Speak

“After the death of my husband, I was not able to make ends meet. The skill centre became my source of confidence and contentment.”

Monika

“Domestic abuse diminished the capacity of every aspect of my life. I found new support here. I lean on the Newgen Skill Development Centre emotionally and financially.”

Renu

VOLUNTEERS

Harshita

**Deputy Genral Manager
Newgen Software**

It was very inspiring to see students being able to use technology, perform research on a topic and present their ideas in a coherent manner.

Lavanya Shandilya

**Associate-HR
Newgen Software**

Students had a lot of knowledge about the debate topic. They had gathered data from various sources. Introductory part was done very well by most of the students and presentation was up to the mark.

The Path Forward

Newgen Digital Discovery Paathshala (NDDP)

- Hybrid model for Class 6-8
- Online sessions for Class 9-12
- Role model engagement for career counseling
- More device distribution to Class 6-12
- Communication in English language

NDDP Mental Health & Personality Development

- Life-skill sessions for Class 6-8
- Mental wellbeing & personality development for Class 9-12

NDDP Summer Camps

- STEM workshops for Class 8-10
- Digital literacy for Class 6 onwards

Expansion of NDDP Mothers' Program

- Additional digital literacy and mental health sessions
- Skill development sessions to empower mothers

Employee Engagement – Newgen Volunteers

- Organize CSR Week
- Encourage participation in online NDDP sessions
- Conduct NDDP online career counseling sessions
- Promote NDDP events like exhibitions, special celebrations

Engage with Implementation Partners

- Scale up digital literacy & nutrition for students in remote areas
- Provide mental wellbeing & personality development sessions
- Empower NDDP mothers with skill development training
