2. Insiders

All the designated persons and Insider (wherever applicable) are required to read this Code and comply with its provisions to the extent applicable to them and their immediate relatives, respectively.

3. OBJECTIVES:

The Code is aimed to enable the Company to regulate, monitor and report trading by Designated Persons along with their immediate relatives towards achieving compliance with the SEBI PIT Regulations, adopting the standards set out in provisions of the SEBI PIT Regulations. It is intended to bring within its ambit those who would have access to or could access unpublished price sensitive information about any Company or class of Companies by virtue of any connection that would put them in possession of unpublished price sensitive information.

4.15 “Trading” means and includes subscribing, redeeming, switching buying, selling, dealing, or agreeing to subscribe, redeem, switch buy, sell, deal in any Securities of the Company, and "trade" shall be construed accordingly.

Explanation: It is intended to widely define the term “trading” to include dealing. 6. TRADING WHEN IN POSSESSION OF UNPUBLISHED PRICE SENSITIVE INFORMATION:

No Insider shall trade in Securities of the Company when in possession of UPSI. When a Person who has traded in Securities has been in possession of UPSI, his/her trades would be presumed to have been motivated by the knowledge and awareness of such information in his/her possession. The reasons for which Insider trades or the purposes to which he/ she applies the proceeds of the transactions are not intended to be relevant for determining whether a Person has violated the regulation. He/ she traded when in possession of UPSI is what would need to be demonstrated at the outset to bring a charge. Once this is established, it would be open to the Insider to prove his/ her innocence by demonstrating the circumstances mentioned in the proviso hereunder, failing which he/ she would have violated the prohibition.

Provided that the Insider may prove his/ her innocence by demonstrating the circumstances including the following: -

- i. the transaction is an off-market inter-se transfer between Insiders who were in possession of the same UPSI without being in breach of Regulation 3 of SEBI PIT Regulations and both parties had made a conscious and informed trade decision.

Provided that such UPSI was not obtained under Regulation 3 of SEBI PIT Regulations.

Provided further that such off-market trades shall be reported by the Insiders to the Company within two working days. The Company shall notify the particulars of such trades to the stock exchanges within two trading days from receipt of the disclosure or from becoming aware of such information.

- ii. The transaction was carried out through the block deal window mechanism between Persons who were in possession of the UPSI without being in breach of clause 6 of this code and both parties had made a conscious and informed trade decision;

Provided that such UPSI was not obtained by either person under Regulation 3 of SEBI PIT Regulations.

- iii. The transaction in question was carried out pursuant to a statutory or regulatory obligation to carry out a bona fide transaction.
- iv. The transaction in question was undertaken pursuant to the exercise of stock options in respect of which the exercise price was pre-determined in compliance with applicable regulations.
- v. In the case of non-individual Insiders: –
 - a the individuals who were in possession of such UPSI were different from the individuals taking trading decisions and such decision-making individuals were not in possession of such UPSI when they took the decision to trade; and
 - b appropriate and adequate arrangements were in place to ensure that these regulations are not violated, and no UPSI was communicated by the individuals possessing the information to the individuals taking trading decisions and there is no evidence of such arrangements having been breached;
- vi. The trades were pursuant to a trading plan set up in accordance with the Code.

7. TRADING PLANS:

An insider shall be entitled to formulate a trading plan for dealing in securities of the Company and present it to the Compliance Officer for approval and public disclosure pursuant to which trades may be carried out on his behalf in accordance with such plan. The trading plan shall be submitted by the aforesaid persons in the format as attached in Annexure 1. The Compliance Officer is authorized to modify Annexure 1 as necessary from time to time and for digitization purpose.

7.1 Such trading plan shall:

- i. not entail commencement of trading on behalf of the Insider earlier than one hundred and twenty calendar days from the public disclosure of the plan;

Note:- It is intended that to get the benefit of a trading plan, a cool-off period of one hundred and twenty calendar days is necessary. Companies declare their results quarterly and there exists a trading restriction, in terms of these Regulations, from quarter end to two days after declaration of quarterly result, which, it is seen, is generally a period of around

one month for most companies. Thus, one hundred and twenty calendar days period is considered reasonably long for unpublished price sensitive information that is in possession of the insider when formulating the trading plan, to become generally available. It is also considered to be a reasonable period for a time lag in which new unpublished price sensitive information may come into being without adversely affecting the trading plan formulated earlier. In any case, it should be remembered that this is only a statutory cool-off period and would not grant immunity from action if the insider were to be in possession of the same unpublished price sensitive information both at the time of formulation of the plan and implementation of the same.

- ii. Not entail overlap of any period for which another trading plan is already in existence.
- iii. Set out following parameters for each trade to be executed:
 - (i) either the value of trade to be effected or the number of securities to be traded;
 - (ii) nature of the trade;
 - (iii) either specific date or time period not exceeding five consecutive trading days;
 - (iv) price limit, that is an upper price limit for a buy trade and a lower price limit for a sell trade, subject to the range as specified below:
 - a. for a buy trade: the upper price limit shall be between the closing price on the day before submission of the trading plan and upto twenty per cent higher than such closing price;
 - b. for a sell trade: the lower price limit shall be between the closing price on the day before submission of the trading plan and upto twenty per cent lower than such closing price.

Explanation: (i) While the parameters in sub-clauses (i), (ii) and (iii) shall be mandatorily mentioned for each trade, the parameter in sub-clause (iv) shall be optional.

(ii) The price limit in sub-clause (iv) shall be rounded off to the nearest numeral.

(iii) Insider may make adjustments, with the approval of the compliance officer, in the number of securities and price limit in the event of corporate actions related to bonus issue and stock split occurring after the approval of trading plan and the same shall be notified on the stock exchanges on which securities are listed]

NOTE: *It is intended that while regulations should not be too prescriptive and rigid about what a trading plan should entail, they should stipulate certain basic parameters that a trading plan should conform to and within which, the plan may be formulated with full flexibility. The nature of the trades entailed in the trading plan i.e. acquisition or disposal should be set out. The trading plan may set out the value of securities or the number of securities to be invested or divested. Specific dates or specific time period may be set out in the plan. However, there should be an outer limit on the duration of the time period, so that while it allows the insider to split their trades across different dates, duration should not be so long that it is prone to misuse. Further, to protect the insider from unexpected price movements, he may, at the time of*

formulation of trading plan, provide price limits within the range specified in these Regulations.

iv. Not entail trading in Securities for market abuse.

7.2 The Compliance Officer shall review the Trading Plan to assess whether the plan would have any potential for violation of the SEBI PIT Regulations and this Code and shall be entitled to seek such express undertakings as may be necessary to enable such assessment and to approve and monitor the implementation of the plan. Post receiving the Trading Plan request, the Compliance Officer shall approve/ reject the trading plan as per the inputs received from below a authority.

Provided further that if the insider has set a price limit for a trade under 7.1(iii)(iv), the insider shall execute the trade only if the execution price of the security is within such limit. If price of the security is outside the price limit set by the insider, the trade shall not be executed.

Explanation: In case of non-implementation (full/partial) of trading plan due to either reasons enumerated as mentioned above or failure of execution of trade due to inadequate liquidity in the scrip, the following procedure shall be adopted:

- (i) The insider shall intimate non-implementation (full/partial) of trading plan to the compliance officer within two trading days of end of tenure of the trading plan with reasons thereof and supporting documents, if any.
- (ii) Upon receipt of information from the insider, the compliance officer, shall place such information along with his recommendation to accept or reject the submissions of the insider, before the Audit Committee in the immediate next meeting. - (iii) The decision of the Audit Committee shall be notified by the compliance officer on the same day to the stock exchanges on which the securities are listed.
