To Whomsoever It May Concern  
=====

MResult is an IT Services company operating in India, USA and Australia. We work with clients in Banking, Financial Services, Insurance, Pharma & Manufacturing sectors to provide services in the areas of Enterprise Content Management (ECM), Business Process Management (BPM), Robotic Process Automation (RPA) & Intelligent Document Processing (IDP). While we have wide experience working with the leading ECM/BPM software products, what struck us about Newgen was its unique combination of product functionality and robust design. In order to provide best-in-class solutions in the area of ECM/BPM to our customers, we entered into a strategic partnership with Newgen in February, 2018.

Newgen has provided us with excellent support including training, pre-sales and technical support. Moreover, we have developed a number of solution accelerators on Newgen BPM platform, leveraging RPA and IDP technologies. These solutions can be delivered as per customer needs. We are working with Newgen on a number of exciting projects in the area of hyper-automation. We find Newgen to be a reliable partner and would highly recommend them as a partner for your business.

Thanking you,

Yours sincerely,

**Ranjan Bhattacharyya**  
Vice President
